

285

Zhang L-J, Du L-N, von Rintelen T

A new genus of river snails, *Dalipaludina* (Gastropoda, Viviparidae), endemic to the Yunnan Plateau of SW China

299

Kaya RS, Zamani A, Yağmur EA, Marusik YM

A new species of *Anatetrix* Kaya, Zamani, Yağmur & Marusik, 2023 (Araneae, Agelenidae, Textricini) from southern Türkiye, with a remarkable morphology of the male palpal femur

307

Castanheira P de S, Framenau VW

*Kangaraneus*, a new genus of orb-weaving spider from Australia (Araneae, Araneidae)

325

Gallé-Szpisjak N, Gallé R, Szűts T

A review of the genus *Sernokorba* Kamura, 1992 (Araneae, Gnaphosidae)

337

Zamani A, Marusik YM, Szűts T

A survey of *Dysderella* Dunin, 1992 (Araneae, Dysderidae), with a new species from Iran

345

Šmíd J, Fernández SM, Elmi HSA, Mazuch T

Diversity of Sand Snakes (Psammophiidae, *Psammophis*) in the Horn of Africa, with the description of a new species from Somalia

363

Tsuyuki A, Oya Y, Kajihara H

A new species of slender flatworm in the genus *Eucestoplana* and a record of *E. cf. cuneata* (Platyhelminthes, Polycladida) from the Okinawa Islands, Japan, with an inference of their phylogenetic positions within Cestoplanidae

375

Khalaji-Pirbalouty V, Gagnon J-M

Illustrated catalogue of sphaeromatoid isopods (Crustacea, Malacostraca) in the Canadian Museum of Nature (CMN)

391

Mathews PD, Mertins O, Espinosa LL, Aguiar JC, Milanin T

First report of a histozoic *Henneguya* (Cnidaria, Endocnidozoa) infecting a synbranchid potamodromous fish from South America: Morphostructural and biological data

399

Saetang T, Maiphae S

Diversity of the genus *Tropodiptomus* Kiefer, 1932 (Crustacea, Copepoda, Calanoida, Diaptomidae) in Thailand, with the description of two new species

423

Segadilha JL, Bird GJ, Tavares M

*Stenotanais* (Crustacea, Tanaidacea) from the Santos Basin: the first described species of the family Akanthophoreidae off the Brazilian coast

439

Turan D, Aksu S, Kalayci G

Two new *Oxynoemacheilus* species in western Anatolia (Teleostei, Nemacheilidae)

457

Pereira E, Roccatagliata D, Doti BL

Revision of the genus *Oxyarcturus* (Isopoda, Valvifera, Antarcturidae), with a description of a new deep-sea species from Argentina

473

Özbek M, Baytaşoğlu H, Aksu İ

A new freshwater amphipod (Amphipoda, Gammaridae) from the Fakilli Cave, Düzce Türkiye: *Gammarus kunti* sp. nov.

489

An C, Li A, Wang H, Li B, Liu K, Sun H, Liu S, Zhuang Z, van der Laan R

Identification of the rare deep-dwelling goby *Suruga fundicola* Jordan & Snyder, 1901 (Gobiiformes, Gobiidae) from the Yellow Sea

503

Bisong PT, Dunlop J, Madruga C

Mammalian type material from Cameroon in the Museum für Naturkunde Berlin

519

Shimada D, Kakui K, Fujita Y

A new species of free-living marine nematode, *Fotolaimus cavus* sp. nov. (Nematoda, Oncholaimida, Oncholaimidae), isolated from a submarine anchialine cave in the Ryukyu Islands, southwestern Japan

535

Korábek O, Balashov I, Neiber MT, Walther F, Hausdorf B

The Caucasus is neither a cradle nor a museum of diversity of the land snail genus *Helix* (Gastropoda, Stylommatophora, Helicidae), while Crimea is home to an ancient lineage

545

Tomikawa K, Yoshii J, Noda A, Lee C-W, Sasaki T, Kimura N, Nunomura N

A new freshwater species of *Gnorimosphaeroma* (Crustacea, Isopoda, Sphaeromatidae) from Chichi-jima Island, Ogasawara Islands, Japan

557

Katnoum C, Keetapithchayakul TS, Rahim AA, Wongkamhaeng K

A new species of *Cerapus* (Amphipoda, Senticaudata, Ischyroceridae) from Mae Klong Estuary, with a discussion on their nesting and types of mating behaviour

Evolution**

# Zoosystematics and Evolution

## A Bulletin of Zoology since 1898

### Instructions for authors

#### Scope

**Zoosystematics and Evolution** is an international, peer-reviewed life science journal devoted to the diversity, systematics and evolution of all animal groups, except for insects. It publishes original research and review articles at all taxonomic levels. Its scope encompasses primary information from collection-related research, taxonomic descriptions and discoveries, revisions, annotated type catalogues, relevant aspects of the history of science, and contributions on new methods and principles of taxonomy and systematics. Articles whose main topic is ecology, functional anatomy, physiology, or ethology are only acceptable when of clear systematic or evolutionary relevance and perspective. Studies on insects should be submitted to the sister journal of ZSE, Deutsche Entomologische Zeitschrift (DEZ).

#### Authors and submission

- Conflicts of interest: Authors must disclose relevant competing interests, both financial and personal.
- Ownership: Authors must declare that the submitted work is their own and that copyright has not been breached in seeking its publication.
- Originality: Authors must declare that the submitted work has not previously been published, and is not being considered for publication elsewhere.

#### Language and style

- The language of publication is English. There is no general limitation of the length of manuscripts, but please contact the editor before submitting papers exceeding 30 printed pages (approximately 60 manuscript pages including figures).
- Manuscripts should be written in a clear, straightforward style and must not have been published or submitted elsewhere.
- The text should be 12 pt, double-spaced, one-sided, left justified and with a margin of at least 3 cm.
- Use a standard typeface, e.g. Times New Roman as little formatted as possible (without tabulators, several blank spaces, etc.). Avoid footnotes.
- Divide the text into sections using headlines and subheadlines. Do not number the headlines. Inline headers should be set in italics and followed by a full stop.
- The names of genera and species must be in italics.
- Taxonomic descriptions must comply with the rules of the 4th edition of the ICZN (see <http://www.iczn.org/>).
- Enter the page number on every page.
- Submit figures with a minimum resolution of 300 dpi.
- The preferred file formats are PSD (Photoshop) and TIFF for colour and grayscale illustrations, and EPS for vector graphics.
- JPG files are only accepted in high resolution.

#### General manuscript structure

If appropriate, the manuscript should be structured using headlines and sub-headlines, but without numbering, according to the following sections:

- Title page
- Abstract
- Introduction
- Materials and Methods
- Results
- Discussion
- Acknowledgements
- References
- Tables with captions
- Figure captions

#### The publication process

##### Peer reviewing

Manuscripts are subject to peer review. All manuscripts submitted will be reviewed by at least two experts. Authors are welcome to make suggestions for competent reviewers.

##### Proofs

Prior to publication of your manuscript you will receive proofs in PDF format. Please correct and return the proofs within two weeks to the editorial office.

We recommend using the standard proofreading marks or – in the case of a few corrections – using page and line numbers.

Do not change the contents of your article. Corrections extending beyond production errors will be carried out at the expense of the author.

The editorial office reserves the right to publish your article with only the editor's corrections, if your corrections do not reach us in time.

##### Publishing

The print and the online versions of your paper are published simultaneously. It is accessible in open access at Pensoft:

<http://zse.pensoft.net>

#### COPE Membership

This journal endorses the COPE (Committee on Publication Ethics) guidelines and will pursue cases of suspected research and publication misconduct (e.g. falsification, unethical experimentation, plagiarism, inappropriate image manipulation, redundant publication). For further information about COPE, please see the website for COPE at <http://www.publicationethics.org.uk>
