

325

Zhou Y, Bian D, Yang Z, Zhang Z, Tong Y, Li S
Four new species and one newly-recorded species of the genus *Opopaea* Simon, 1892 (Araneae, Oonopidae) from southern China, with a key to Chinese species

349

Kaya C, Imre HB, Kurtul I
Is *Garra rezai* (Teleostei, Cyprinidae) a species known only from two widely disjunct areas in the Tigris drainage?

357

García Facal G, Ivanov VA, Menoret A
New species of *Rockacestus* (Cestoda, Phyllobothriidea) from skates of the genus *Bathyraja* (Rajiformes, Arhynchobatidae) in the Southwestern Atlantic Ocean with comments on the distribution of the genus

373

Jiang C, Yao C, Huang L, Li W
Five new species of *Exalloniscus* Stebbing, 1911 (Crustacea, Isopoda, Oniscidea) from China

385

Kakui K
A new parasitic barnacle (Crustacea, Cirripedia, Rhizocephala, *Mycetomorpha*) from the abyssal zone in the northwestern Pacific

391

Küçük F, Kalaycı G, Güçlü SS, Oral M, Turan D
A new species of trout from the Köprüçay River, a drainage of Mediterranean Sea, Türkiye (Salmoniformes, Salmonidae)

405

Jonishi T, Nakano T
Taxonomic re-appraisal of *Scolopocryptops quadristriatus* (Verhoeff, 1934) and a description of a new species from Japan and Taiwan (Chilopoda, Scolopendromorpha, Scolopocryptopidae)

425

Yu Y, Jiao Y, Zhang J
Description of a new species of the genus *Cultellus* Schumacher, 1817 (Bivalvia, Pharidae) from the South China Sea, based on integrative taxonomy

437

Liu H-L, Lin D-H, Wang A-T, Hu Z-L, Zhang Y
Description of a new marine flatworm of *Prosthiostomum* (Platyhelminthes, Polycladida, Prosthiostomidae) from the South China Sea

447

Sudhin PP, Jwala R, Sen S, Hegde VD
Taxonomic notes on the genus *Epeus* Peckham & Peckham, 1886 (Araneae, Salticidae) from India

457

Kaya C, Kurtul I, Aksu İ, Oral M, Freyhof J
Oxynoemacheilus chaboras, a new loach species from the Euphrates drainage in Türkiye (Teleostei, Nemacheilidae)

469

Ojanguren-Affilastro AA, Alfaro FM, Ramírez MJ, Camousseigt-Montolivo B, Pizarro-Araya J
A new species of genus *Urophonius* Pocock, 1893 (Scorpiones, Bothriuridae), from Andean Mauline Chilean forests, with a phylogenetic re-analysis of the genus

483

Turan D, Aksu S, Güçlü SS, Kalaycı G
Oxynoemacheilus kottelati, a new species from the Havran and Karınca streams in Northern Aegean Basin, Türkiye (Teleostei, Nemacheilidae)

493

Antić D, Wesener T, Akkari N
Natural history collections help resurrecting *Glomeris herzogowinensis* Verhoeff, 1898 and further clarify the nomenclature of two *Onychoglomeris* subspecies of Attems (Diplopoda, Glomerida, Glomeridae)

515

Shao W-H, Cheng G-Y, Lu X-L, Zhou J-J, Zeng Z-X
Description of a new troglitic *Sinocyclocheilus* (Pisces, Cyprinidae) species from the upper Yangtze River Basin in Guizhou, South China

531

Marathe K, Tripathi R, Sudhikumar AV, Maddison WP
Phylogenomic placement and revision of *Iranattus* Prószyński, 1992 jumping spiders (Salticidae, Plexippini, Plexippina)

543

Valentas-Romera BL, Simone LRL, Marques RC
A new species of *Cyrenoida* (Bivalvia, Cyrenoididae) from the Western Atlantic, with remarks on Cyrenoididae anatomy

555

Chen Z-G, Guo Y-S, Dai Y-T, Huang X-C, Huang J-H, Jiang J, Ouyang S, Wen A-X, Wu X-P
A new species of *Liobagrus* Hilgendorf, 1878 (Teleostei, Siluriformes, Amblycipitidae) from the lower Changjiang River basin in southeast China

565

Köhler J, Glaw F, Aguilar-Puntriano C, Castroviejo-Fisher S, Chaparro JC, De la Riva I, Gagliardi-Urrutia G, Gutiérrez R, Vences M, Padial JM
Similar looking sisters: A new sibling species in the *Pristimantis danae* group from the southwestern Amazon basin (Anura, Strabomantidae)

583

Zhou J-J, Yuan L-Y, Shao W-H
Tachysurus wuyueensis (Teleostei, Bagridae), a new species of catfish from the Qiantang-Jiang basin, southeast China

Zoosystematics and Evolution

Zoosystematics and Evolution

A Bulletin of Zoology since 1898

Instructions for authors

Scope

Zoosystematics and Evolution is an international, peer-reviewed life science journal devoted to the diversity, systematics and evolution of all animal groups, except for insects. It publishes original research and review articles at all taxonomic levels. Its scope encompasses primary information from collection-related research, taxonomic descriptions and discoveries, revisions, annotated type catalogues, relevant aspects of the history of science, and contributions on new methods and principles of taxonomy and systematics. Articles whose main topic is ecology, functional anatomy, physiology, or ethology are only acceptable when of clear systematic or evolutionary relevance and perspective. Studies on insects should be submitted to the sister journal of ZSE, Deutsche Entomologische Zeitschrift (DEZ).

Authors and submission

- Conflicts of interest: Authors must disclose relevant compet- ing interests, both financial and personal.
- Ownership: Authors must declare that the submitted work is their own and that copyright has not been breached in seeking its publication.
- Originality: Authors must declare that the submitted work has not previously been published, and is not being consid- ered for publication elsewhere.

Language and style

- The language of publication is English. There is no general limitation of the length of manuscripts, but please contact the editor before submitting papers exceeding 30 printed pages (approximately 60 manuscript pages including figures).
- Manuscripts should be written in a clear, straightforward style and must not have been published or submitted elsewhere.
- The text should be 12 pt, double-spaced, one-sided, left justified and with a margin of at least 3 cm.
- Use a standard typeface, e.g. Times New Roman as little formatted as possible (without tabulators, several blank spaces, etc.). Avoid footnotes.
- Divide the text into sections using headlines and subheadlines. Do not number the headlines. Inline headers should be set in italics and followed by a full stop.
- The names of genera and species must be in italics.
- Taxonomic descriptions must comply with the rules of the 4th edition of the ICZN (see http://www.iczn.org/).
- Enter the page number on every page.
- Submit figures with a minimum resolution of 300 dpi.
- The preferred file formats are PSD (Photoshop) and TIFF for colour and grayscale illustrations, and EPS for vector graphics.
- JPG files are only accepted in high resolution.

General manuscript structure

If appropriate, the manuscript should be structured using headlines and sub-headlines, but without numbering, according to the following sections:

- Title page
- Abstract
- Introduction
- Materials and Methods
- Results
- Discussion
- Acknowledgements
- References
- Tables with captions
- Figure captions

The publication process

Peer reviewing

Manuscripts are subject to peer review. All manuscripts submitted will be reviewed by at least two experts. Authors are welcome to make suggestions for competent reviewers.

Proofs

Prior to publication of your manuscript you will receive proofs in PDF format. Please correct and return the proofs within two weeks to the editorial office.

We recommend using the standard proofreading marks or – in the case of a few corrections – using page and line numbers.

Do not change the contents of your article. Corrections extending beyond production errors will be carried out at the expense of the author.

The editorial office reserves the right to publish your article with only the editor’s corrections, if your corrections do not reach us in time.

Publishing

The print and the online versions of your paper are published simultaneously. It is accessible in open access at Pensoft: http://zse.pensoft.net

COPE Membership

This journal endorses the COPE (Committee on Publication Ethics) guidelines and will pursue cases of suspected research and publication misconduct (e.g. falsification, unethical experimentation, plagiarism, inappropriate image manipulation, redundant publication). For further informa- tion about COPE, please see the website for COPE at http://www.publicationethics.org.uk

625

Tang S, Xiao F, Liu S, Wang L, Yu G, Du L

Underestimated species diversity within the *Rhacophorus rhodopus* and *Rhacophorus bipunctatus* complexes (Anura, Rhacophoridae), with a description of a new species from Hainan, China

645

Wang Y-R, Sha Z-L, Ren X-Q

A new species of *Eusirus* Krøyer, 1845 (Amphipoda, Amphilocheida, Eusiridae) from the seamount of the Caroline Plate, with redescription of *Meteusiroides keyensis* Pirlot, 1934

663

Ge J-Y, Nong Z-Q, Yang J, Du L-N, Zhou J-J

Taxonomic revision of the cavefish genus *Karstsinnectes* (Cypriniformes, Nemacheilidae), with a description of a new species from Guangxi Province, China

675

Vanegas-Ríos JA, Urbano-Bonilla A, Sánchez-Garcés GC

A new species of *Chrysobrycon* Weitzman & Menezes, 1998 (Characiformes, Characidae, Stevardiinae) with remarkable sexually dimorphic pigmentation from the upper Río Vaupés basin, Colombian Amazon, with taxonomic key

691

Licata F, Pola L, Šmíd J, Ibrahim AA, Liz AV, Santos B, Patkó L, Abdulkareem A, Gonçalves DV, AlShammari AM, Busais S, Egan DM, Ramalho RMO, Smithson J, Brito JC

The missing piece of the puzzle: A new and widespread species of the genus *Rhynchocalamus* Günther, 1864 (Squamata, Colubridae) from the Arabian Peninsula

705

Yang L, Li S, Yao Z

Five new species of the spider genus *Bifurcia* Saaristo, Tu & Li, 2006 (Araneae, Linyphiidae) from Sichuan, China

721

Mirghaffari SA, Esmaeili-Rineh S

Two new species of groundwater-inhabiting amphipods belonging to the genus *Niphargus* (Arthropoda, Crustacea), from Iran

739

Matusevich F, Gabbanelli V, Vulcano G, Plá N, Lenain VM, Vazquez DM, Díaz de Astarloa JM, Mabragaña E

DNA barcoding suggests hidden diversity within the genus *Zenopsis* (Zeiformes, Zeidae)

747

Qin Z-X, Shao W-han, Du L-N, Wang Z-X

A new species of *Yunnanilus* (Cypriniformes, Nemacheilidae) from Yunnan, southwest China

755

Costa WJEM, Feltrin CRM, Mattos JLO, Katz AM

A new rare catfish species from southeastern Brazil provides insights into the origins of similar colour patterns in syntopic, distantly related mountain trichomycterines (Siluriformes, Trichomycteridae)
