

1191

Dai Y-T, Chen Z-G, Hu C-L, Ouyang S, Huang X-C, Wu X-P
Description of a new freshwater mussel species of *Pletholophus*, Simpson, 1900 (Bivalvia, Unionidae) from Guangdong, China

1201

Chen Z-G, Dai Y-T, Wu X-P, Jiang J, Ouyang S
A new species of *Petraemastus* Möllendorff, 1901, with an atypical shell morphology from the Lancangjiang River Valley in southwest China (Gastropoda, Stylommatophora, Enidae)

1211

Saetang T, Koompoot K, Watirogram S, Maiphae S
A new species of *Thermocyclops* Kiefer, 1927 (Crustacea, Copepoda, Cyclopoida, Cyclopidae) from temporary habitats, with a discussion on the diversity and distribution of the genus in Thailand

1231

Jiang H, Wang X, Yang Y, Pan X, Liu S, Lu J
Tscherskia ningshaanensis: A neglected species based on phylogenetic and taxonomic analysis of *Tscherskia* and *Cansumys* (Cricetidae, Rodentia)

1243

Rodríguez-Flores PC, Ambler JW, Nizinski MS
Integrative taxonomy reveals a new species of deep-sea squat lobster (Galatheoidea, Munidopsidae) from cold seeps in the Gulf of Mexico

1259

Zhong J-H, Yang J, Mo H-L, Chen W-C
Description of a new species of the genus *Oreonectes* (Teleostei, Cypriniformes, Nemacheilidae) from Guangxi, China

1269

Felföldi T, Nagy H, Dózsa-Farkas K
New data on the polyphyletic *Marionina* genus (Annelida, Enchytraeidae): description of three new species from European shore habitats

1287

Liu L, Fu D, Luo Y
Grassland expansions promoted global diversification of the *Pardosa* wolf spiders during the late Cenozoic (Araneae, Lycosidae)

1297

Yang D, Zeng S, Wang Z, Zhang Y, Yang D, Glasby CJ, Hwang J-S, Cai L
Molecular systematics of *Perinereis* and an investigation of the status and relationships of the cultured species *Perinereis wilsoni* Glasby & Hsieh, 2006 (Annelida, Nereididae)

1315

Digiani MC, Serrano PC
Synonymy, redescription, molecular characterisation, and new distribution data of species of *Stilestrongylus* and *Guerrerostrongylus* (Nematoda, Heligmonellidae) parasitic in sigmodontine rodents from Argentina and Uruguay: a collection-based survey

Zoosyst. Evol. 100 (4) 2024, 1191–1598

 Leibniz Association

1333

Jeratthitikul E, Sutcharit C, Prasankok P
Two new genera and three new species of exceptionally rare and endemic freshwater mussels (Bivalvia, Unionidae) from the Mekong Basin

1347

Klongklaew K, Poeaim S, Dumrongrojwattana P
Four new species of *Georissa* W. Blanford, 1864 (Gastropoda, Hydrocenidae) from Thailand

1361

Cao Y-Y, Suwannapoom C, Kasyoka Kilunda F, Gao W, Wu C-L, Wu Y-H, Che J
Taxonomic revision of the genus *Micryletta* (Amphibia, Microhylidae), with description of a new species from Thailand

1375

Mo H-L, Yang J, Li P, Du L-N
Description of two new species of the genus *Paranemachilus* (Cypriniformes, Nemacheilidae) from Guangxi, China

1387

Meza-Vargas V, Ramirez JL, Lujan NK
The ornate rubbernose pleco (Siluriformes, Loricariidae, *Chaetostoma*), a new species from the Ucayali River Basin, Peru

1401

García Facal G, Franzese S, Montes MM, Menoret A
Molecular phylogeny, including a new species of *Anindobothrium* (Cestoda, Rhinebothriidea) from the Southern eagle ray *Myliobatis goodei*, finally solves the taxonomic enigma of *Phyllobothrium myliobatidis*

1419

Dai Y-T, Chen Z-G, Cheng Y-Z, Huang X-C, Ouyang S, Shu F-Y, Wu X-P
Molecular phylogeny reveals a new genus and species of freshwater mussel (Bivalvia, Unionidae, Gonideinae) from Jiangxi, China

1431

Wittmann KJ, Wirtz P
An update on the genus *Ischiomysis* with a description of *I. proincisa* sp. nov. (Crustacea, Mysida) from a sublittoral marine cave in the Gulf of Guinea (tropical E-Atlantic)

1443

Wildish DJ
Evolutionary ecology of the North Atlantic Talitridae (Crustacea, Amphipoda): A review

1459

Santana DJ, Lacerda JVA, Carvalho PS, Folly M, da Costa BB, Ribeiro Dias I, Carmo LF, Costa HC, Shepard DB, Canedo C
DNA sequencing of topotypes helps delineate species distributions in the *Ischnocnema verrucosa* complex (Anura, Brachycephalidae)

1473

Luo T, Luo F-W, Lan C-T, Xiao M-Y, Zhou J-J, Liao M, Xiao N, Zhou J
Evolutionary history of Chinese karst loaches (Nemacheilidae, *Karstsinnectes*): new insights from mitochondrial-based genomes and description of a new species from Guangxi, China

1487

Pérez-García P, Gouveia F, Calado G, Noreña C, Cervera JL
Acotylea (Platyhelminthes, Polycladida) from the southern and western Iberian Peninsula, with the description of five new species

Zoosystematics and Evolution

A Bulletin of Zoology since 1898

Instructions for authors

Scope

Zoosystematics and Evolution is an international, peer-reviewed life science journal devoted to the diversity, systematics and evolution of all animal groups, except for insects. It publishes original research and review articles at all taxonomic levels. Its scope encompasses primary information from collection-related research, taxonomic descriptions and discoveries, revisions, annotated type catalogues, relevant aspects of the history of science, and contributions on new methods and principles of taxonomy and systematics. Articles whose main topic is ecology, functional anatomy, physiology, or ethology are only acceptable when of clear systematic or evolutionary relevance and perspective. Studies on insects should be submitted to the sister journal of ZSE, *Deutsche Entomologische Zeitschrift* (DEZ).

Authors and submission

- **Conflicts of interest:** Authors must disclose relevant competing interests, both financial and personal.
- **Ownership:** Authors must declare that the submitted work is their own and that copyright has not been breached in seeking its publication.
- **Originality:** Authors must declare that the submitted work has not previously been published, and is not being considered for publication elsewhere.

Language and style

- The language of publication is English. There is no general limitation of the length of manuscripts, but please contact the editor before submitting papers exceeding 30 printed pages (approximately 60 manuscript pages including figures).
- Manuscripts should be written in a clear, straightforward style and must not have been published or submitted elsewhere.
- The text should be 12 pt, double-spaced, one-sided, left justified and with a margin of at least 3 cm.
- Use a standard typeface, e.g. Times New Roman as little formatted as possible (without tabulators, several blank spaces, etc.). Avoid footnotes.
- Divide the text into sections using headlines and subheadlines. Do not number the headlines. Inline headers should be set in italics and followed by a full stop.
- The names of genera and species must be in italics.
- Taxonomic descriptions must comply with the rules of the 4th edition of the ICZN (see <http://www.iczn.org/>).
- Enter the page number on every page.
- Submit figures with a minimum resolution of 300 dpi.
- The preferred file formats are PSD (Photoshop) and TIFF for colour and grayscale illustrations, and EPS for vector graphics.
- JPG files are only accepted in high resolution.

General manuscript structure

If appropriate, the manuscript should be structured using headlines and sub-headlines, but without numbering, according to the following sections:

- Title page
- Abstract
- Introduction
- Materials and Methods
- Results
- Discussion
- Acknowledgements
- References
- Tables with captions
- Figure captions

The publication process

Peer reviewing

Manuscripts are subject to peer review. All manuscripts submitted will be reviewed by at least two experts. Authors are welcome to make suggestions for competent reviewers.

Proofs

Prior to publication of your manuscript you will receive proofs in PDF format. Please correct and return the proofs within two weeks to the editorial office.

We recommend using the standard proofreading marks or – in the case of a few corrections – using page and line numbers.

Do not change the contents of your article. Corrections extending beyond production errors will be carried out at the expense of the author.

The editorial office reserves the right to publish your article with only the editor's corrections, if your corrections do not reach us in time.

Publishing

The print and the online versions of your paper are published simultaneously. It is accessible in open access at Pensoft: <http://zse.pensoft.net>

COPE Membership

This journal endorses the COPE (Committee on Publication Ethics) guidelines and will pursue cases of suspected research and publication misconduct (e.g. falsification, unethical experimentation, plagiarism, inappropriate image manipulation, redundant publication). For further information about COPE, please see the website for COPE at <http://www.publicationethics.org.uk>

1515

Nguyen AD, Nguyen LTP, Korsós Z

A review of the millipede genus *Pseudodesmus* Pocock, 1887 (Diplopoda, Platydesmida, Andrognathidae) from Vietnam, with descriptions of five new species and notes on its phylogeny

1543

Salvador RB, Bichuette ME

Idiopyrgus Pilsbry, 1911 (Gastropoda, Tomichiidae): a relict genus radiating into subterranean environments

1557

Fan J-bo, You C-X, Jiang C

Rediscovery and phylogenetic analysis of *Agnostrup*, a least known genus of Mecistocephalidae (Chilopoda, Geophilomorpha) in China

1569

Porta AO, Parra-Gómez A, Poy D, Kreps G, Mackenzie R, Martínez Pastur G, Fernandez LD

The southernmost record for a symphylan: *Hanseniella guerreroi* sp. nov. (Myriapoda, ScutigereIllidae), an inhabitant of the Tierra del Fuego archipelago

1585

Jimi N, Hookabe N, Imura S, Diez YL

Two new species of Schizorhynchia (Kalyptorhynchia, Rhabdocoela, Platyhelminthes) from Japan
